

EDITORIAL

Events for June and for the summer are already being announced !

At the Gallo-Roman Villa of Montmaurin two events are being prepared for the month of June 2015 :

Meetings in the Gardens – Sunday 7th June ;
Archaeology Days – Sunday 21st June.

For those who wish it the commune is offering free entry to the Gallo-Roman villa to people of Montmaurin on these two days (ask the Guide on the day itself).

Improvement works at the pool are underway for the opening on July 1st.

A taster day of sport : tennis and hockey for 6-10 years olds is planned for Sunday 7th June. Depending on demand a second day may be planned for Sunday 14th June.

We shall be able to meet up at these different events which offer everyone the chance to mix with residents from different areas of the village and which will allow us to value and enjoy Montmaurin !

Cordially,

Silvia Belair
Le Maire

VILLAGE NEWS

Work at the municipal campsite

Work to bring up to the required standard electrical installations at Montmaurin's municipal campsite will start in June.

Julie and Nina have won their bet « to put the FULL sign up for this summer ».

We are happy with their involvement in making the most of this peaceful place and that they continue to enhance it every day !! *What a great success !*

Works in the swimming pool enclosure

Daniel et Philippe, village employees, have been joined by volunteers to complete in time the levelling of the paved area. ... Other improvements are planned. We'll keep the surprise for the opening on 1st July !!!

Tennis Court

Improvements to the tennis court are also planned at very little cost since volunteers have come forward to renew the lines once it has been cleaned. Reinforcement of the fence surrounding the court is also in progress.

This is an initiative which will certainly allow players to use this amenity : a tennis court which until now has been neglected so far as maintenance is concerned – and so give it new life.

Defibrillator

From 2008 until now the village defibrillator has been shut up in the swimming pool premises all through the year. **It is obvious that a defibrillator needs to be in a place accessible to everyone.** Soon we will install the new defibrillator in a specially made case near the entrance to the Mairie except in July and August when it will be in the pool area. At that time, outside the pool building there will be displayed a list of people to contact outside opening hours in order to gain access to the defibrillator.

Coming soon : a training session will be organised to which younger members of our village and others who wish to come, will be invited.

Village map display board

You will be pleased to see, in the village square, a new display board allowing you to find village areas, facilities and buildings as well as natural, historic and archaeological sites of Montmaurin.

Let everyone be reassured...

The village benefits from the voluntary cooperation of some of its residents who help out with public service work. This voluntary assistance is without remuneration, either financial or material. This method of working allows us to carry out well and quickly, jobs which the village employees would have had to do alone. We thank all those who play an active part in the necessary improvement of our village.

EVENTS FOR THE MONTH OF JUNE...
