N°4

2015

EDITORIAL

We have so much to do for the village: each repair and maintenance project has to be thought about and discussed so that investments last and so that everyone can benefit from village infrastructure, notably the camp site and the swimming pool with our plan for solar energy.

We have managed to improve and renovate the municipal swimming pool: an "institution" since 1964 which we would like to be a sociable meeting point.

Craftsmen and businesses as well as volunteers have played an active part to ensure the best possible conditions for its use as from July 1st.

You are invited to come and find out about changes in the swimming pool and about its various planned activities before its summer opening:

Tuesday 30 June 2015 at 19.00hrs (main entrance)

I look forward to meeting you to view the swimming pool which I hope you will appreciate as much as we do!

Cordially,

Silvia Belair
The Mayor

The regional prefecture has told us that the national heat wave plan must be put in place in every village.

The elderly, the disabled, families and people responsible for them, who request it, can be registered in the village so that regular contact can be organised, particularly at times of great heat.
